

# CYCLING AT UC DAVIS

## UC Davis Flatlands Race Weekend April 7th, 2024: UC Davis Flatlands Circuit Race

Held under USA Cycling Event Permit Pending

At first glance, the UC Davis Airport Circuit Race appears to be a simple course. The 3.8 loop is completely flat with no technical sections. However, looks can be deceiving because the real battle won't be with the course... it will be with the wind. Depending on the day, the wind speeds can average 10 to 20 mph in any direction. Be prepared to get guttered.

On this 3.8-mile course, riders will complete clockwise loops. Staging will be at registration, at the intersection of Campbell and Garrod.

- **Center line rule in effect.**
- **There is no center line on Brooks, Levee, or Hopkins Road. However, there may be vehicles on course so stay to the right.**
